Crane Training Schools BC

Crane Training Schools BC - Our various programs for Mobile Crane Operation are intended for experienced operators who requires re-certification or certification, and for inexperienced people who are looking for their first work as a crane operator. Business demand for certified crane operators is high throughout the country. Crane operator positions are in demand due to their high rates of pay. Crane operators are amongst the highest paid of any heavy machinery operator.

Our Crane Training Schools include instruction and training for various mobile cranes. Course content consists of Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Load Charts, Rigging, and Signaling.

The program is most suitable for crane riggers, operators and their supervisors. The materials included in the course would comprise a manual and a lot of informative handouts. The illustrated safety guidebook consists of 100 to 250 pages, depending on the course, of useful and vital material. Course materials include load exercises and load charts for the crane with which the trainee is working.

Over half of the course consists of Hands-On Safety Training. Practical training is effective for increasing and developing personnel skills levels. Only experienced journeyman crane instructors are selected to teach the courses. Our instructors have numerous years of industry experience.

For all the course we provide, we could include optional testing mechanisms to customize your training. A skills test is generally administered for programs which consist of H.O.S.T. Individuals training would be tested and graded.

We provide certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signalperson Training and Certification; Articulated Boom / Knuckleboom Cranes; In-The Seat Training and Testing & Certification.

Business standards of practice are evolving as new industry requirements surface. There are constant updates to regulations and legislation. Enhancements in technology and equipment continue to be made. Industry data analysis and collection identify trends which are changing. Members maintain the privilege of managing their training programs and certifications. Mobile device alerts keep members ahead of personal and workplace safety news.
